

Cézanne Canvas

430 gsm, 100% cotton, natural white, matt

Cézanne Canvas is the latest addition to Hahnemühle's range of high-quality canvas for digital FineArt inkjet printing. The natural white cotton canvas contains no optical brighteners (OBA's), and features a finely woven, elegant surface structure. The matt coating provides a first class printing result with a wide colour gamut and deep, rich blacks. Cézanne Canvas 430gsm provides extraordinary elasticity, making it ideal for stretcher frames.

- 430 gsm, 100% cotton
- Without optical brighteners
- Natural white, matt canvas
- Finely woven surface texture
- Extremely vibrant colours and deep blacks without losing any details
- Compatible with dye and pigment-based inks
- Acid-free and age resistant according to ISO 9706 (museum standard according to galleries and museum's longevity requirements)
- Performs well with Hahnemühle Varnish and stretcher-frame systems
- ICC-profiles available on www.hahnemuehle.com/icc-profiles
